Park Dedication:

153.29

Proportional Park Dedication Calculations:

Park dedication requirements shall be based upon the parkland demand created by the use contained within each subdivision as it relates to the generation of person-residents. The amount of parkland required for each person-resident is based on the need for parkland to achieve the park services standard which the City has set through its historic parkland development. The City standard is 0.00955 acre of parkland area needed for each person-resident.

Where cash-in-lieu of land is taken, the value of the land shall be based on the benchmark values of raw land that are set by the City Council based on periodic review of market conditions. Present benchmark values are:

Single family	\$75,000.00 per acre
Multi-family	\$175,000.00 per acre
Commercial	\$265,000.00 per acre
Industrial	\$128,000.00 per acre

Residential Subdivision Formula:

Single Family = 2.7 persons/unit

Townhouse = 2.1 persons/unit

Apartment = 2.0 persons/unit

(number of units) x (persons per unit) x (0.00955 acre) = total land area of dedication

Example:

Single family at 3 units/acre: $3 \times 2.7 \times 0.00955 = 0.0774$ acre x \$75,000 = \$5,805.00 per acre

or

Each single family unit = 2.7 persons x 0.00955 acre = 0.0258 x \$75,000 = \$1,935.00 per unit

Example:

Townhouse at 6 units/acre: $6 \times 2.1 \times 0.00955 = 0.12033$ x \$175,000 = \$21,057.75 per acre

or

Each townhouse unit = 2.1 persons x 0.00955 = 0.020055 x \$175,000 = \$3,509.63 per unit

Example:

Apartment at 18 units/acre: $18 \times 2.0 \times 0.00955 = 0.3438$ x \$175,000 = \$60,165.00 per acre

or

Each apartment unit = 2.0 persons x 0.00955 = 0.0191 x \$175,000 = \$3,342.50 per unit

Commercial Subdivision Formula:

Retail/Service = 2 employees per 1,000 square feet of building area
 Office = 3 employees per 1,000 square feet of building area
 Institutional = 1 employee per 1,000 square feet of building area
 Industrial = 1 employee per 1,000 square feet of building area

Commercial/Office/Institutional: 1 employee = 0.25 person-resident

The fractional person-resident is based upon the more limited park services demanded by an employee (employee ball teams; picnic grounds; civic celebrations; etc.) plus certain park services related to the customer/client that patronizes the business on a per employee basis. The park dedication clause in the subdivision agreement should make it clear that the actual amount of park dedication to be charged will be based on the size of the building(s) to be erected. If land is taken rather than cash, the calculation would presume a single story building on each lot with the maximum % building coverage of the applicable zoning district in which the subdivision is located.

Example:

(retail/service building square footage/1000) x number of employees per 1,000 sq. ft. = number of employees x 0.25 = number of person-equivalents x 0.00955 acres = acreage to be dedicated x \$265,000 = cash dedication.

or

$1000/1000 \times 2 = 2 \times 0.25 = 0.5 \times 0.0095 = 0.0048 \times \$265,000 = \$1,272.00$ per 1,000 sq. ft. of building area.

Example:

(office building square footage/1000) x number of employees per 1,000 sq. ft. = number of employees x 0.25 = number of person-equivalents x 0.00955 acres = acreage to be dedicated x \$265,000 = cash dedication.

or

$1000/1000 \times 3 = 3 \times 0.25 = 0.75 \times 0.0095 = 0.0071 \times \$265,000 = \$1,881.50$ per 1,000 sq. ft. of building area.

Example:

(institutional building square footage/1000) x number of employees per 1,000 sq. ft. = number of employees x 0.25 = number of person-equivalents x 0.00955 acres = acreage to be dedicated x \$265,000 = cash dedication.

or

$1000/1000 \times 1 = 1 \times 0.25 = 0.25 \times 0.0095 = 0.0024 \times \$265,000 = \$636.00$ per 1,000 sq. ft. of building area.

Industrial: 1 employee = 0.1 person-resident

The fractional person-resident is based upon the even more limited park services demanded by an industrial employee (employee ball teams; picnic grounds; civic celebrations; etc.) The park dedication clause in the subdivision agreement should make it clear that the actual amount of park dedication to be charged will be based on the size of the building(s) to be erected. If land is taken rather than cash, the calculation would presume a single story building on each lot with the maximum % building coverage of the applicable zoning district in which the subdivision is located.

Example:

$(\text{industrial building square footage}/1000) \times \text{number of employees per 1,000 sq. ft.} = \text{number of employees} \times 0.1 = \text{number of person-equivalents} \times 0.00955 \text{ acres} = \text{acreage to be dedicated} \times \$128,000 = \text{cash dedication.}$

or

$1000/1000 \times 1 = 1 \times 0.1 = 0.1 \times 0.0095 = 0.001 \times \$128,000 = \$128.00 \text{ per 1,000 sq. ft. of building area.}$

NOTES:

- ⁴ Acreage will be calculated based on platted area less major rights of way (50 foot half right of way or greater.)
- ⁵ Sewer Flow Basis - sewer consumption charges are based on the average 3 metered monthly winter water consumptions or the winter quarter water consumptions, except commercial and institutional are based on water consumption each month. If the residence was not occupied by the current customer during the 3 winter months, the sewer charge will be based on the actual water quantity used up to 6,000 gallons each month until a standard 3 winter months or winter quarter is established.
- ⁶ Sewer Prorating Policy - new accounts of less than a full month/quarter due to ownership or occupancy changes shall be prorated based on the charge for the most recent winter water consumption (for accounts being closed) or the charge for actual water quantity used up to 6,000 gallons each month (for new accounts) times the number of days of occupancy in the month and dividing the result by 30.
- ⁷ Water Prorating Policy - new accounts of less than a full month/quarter due to ownership or occupancy changes shall have base water charges prorated with consumption charges based on actual quantity used.
- ⁸ Rates are effective for all bills mailed after January 15, 2020.
