## RESIDENT QUESTIONNAIRE

2022-107

---

The City of Apple Valley 2022 Capital Improvement Program identifies potential street reconstruction and utility maintenance work for Greenleaf 6th and 7th Addition (Phase 1). The scope of work includes total replacement of 3,255 lf of street, curb, gutter and sidewalk along with lining of the sanitary sewer, miscellaneous water main maintenance, storm sewer improvements and LED lighting upgrades.

During the design stage, it is important for the City to receive Community feedback. By completing and returning this questionnaire, the City of Apple Valley Public Works staff can better understand the infrastructure needs in your neighborhood. Additional discussion with residents and/or City Council may be necessary. Notices will be provided prior to any additional open house discussions or meetings.

1. Do you have a lawn irrigation (sprinkler) system located within your front yard?

Please check one:  Yes  No

2. Do you have an invisible fence system located in your front yard?

Please check one:  Yes  No

3. What other concerns do you have? (*Note: Special Assessments are not proposed for this project.*)

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

**Please return by October 29, 2021. A stamped, self-addressed envelope is enclosed for your convenience.**

To continue the long standing practice of not using special assessments, the City Policy, approved by City Council on February 23, 2017, Resolution 2017-03, regarding Private items in the Public Right-of-Way are outlined below:

*Street Improvement Projects often require construction work to occur within the public right-of-way area behind the concrete curb or outside of the paved street section. This area is typically referred to as the boulevard. Adjacent property owners along the street frequently have installed privately owned items within the boulevard area. Some examples of privately owned items within the boulevard include:*

- *Irrigation or sprinkler systems*
- *Bushes and landscape plantings*
- *Decorative fences*
- *Underground dog fences*

*The City will not be responsible for the cost to remove/reinstall privately owned items that are encountered within the right-of-way as part of a Street Improvement Project. City staff will send notice to property owners ahead of the project timeframe, requesting that the property owner remove any privately-owned items within the construction zone of the public right-of-way.*

Thank you for your cooperation.
